MEMORANDUM FOR: Deputy Director, Support
SUBJECT : MidCareerist Follow-up
REFERENCE : DDS note to D/Fin 20 Jun 1969, same subject

In response to your note we have again reviewed the records of all Finance Officers who attended the MidCareer course to date. We reviewed each of these officers last May concerning their progress, potential for growth, plans for further development, prospective assignments, rotation questionnaires, etc., and discussed their requests and our plans for them at recent meetings of the Finance Career Service Board.

This May analysis has been updated to respond to the questions asked and the attached report concerning each of these officers supplements the basic information set forth in the attachment to your note.

Where training courses were not previously noted, these have been entered under Item E. Other courses where scheduled or the officer nominated are shown under Item F.

Formal written career plans in some few instances are not finalized where the officer is now being considered for a number of available assignments depending upon our rotation plans for other senior officers. However, as decisions are reached, our Board records will reflect the facts and indicate the direction of their careers including training to be taken be it on the job or formal courses.
